Locations where sidewalks were rehabilitated, replaced or newly installed - 2018

1. Approximately 11,000 panels at city-wide locations including:
 - i. East side of Avenue C North between Circle Drive and 39th Street - tied into the existing sidewalk south of the CN Rail tracks.
 - ii. North side of 23rd Street West between Avenue B North and Avenue C North.
 - iii. Concrete improvements at the Moss Avenue and 8th Street intersection. This included adding some ramps to the new 'pork chop' islands and widening the sidewalk on the southeast corner of Moss and 8th.
2. Approximately 450 additional panels at locations undergoing water & sewer upgrades:
 - i. City Park: approximately 250 new panels.
 - ii. Avenue J, 29th Street and Quebec Avenue: approximately 134 panels.
 - iii. 115th Street: approximately 57 panels.

** In addition to sidewalks, 12 new pedestrian ramps (connecting sidewalks to roadways) were also constructed in the above locations.
